HOUSE OF MOTHER'S AGENDA

Arise, O soul,
And vanquish Time and Death
– Sri Aurobindo, Savitri

The Divine Paradox

Beyond the tombs and the centuries, so many centuries, this “Time infinite that gives birth to numberless nights and days” – to what end? – we can almost hear the great wave Sophocles was join the great rhythm Sri Aurobindo was, as the chorus join the Actor; as the end meets its beginning again, as their questions mingle, and their gaze.

O Force-compelled, Fate-driven earth-born race,
O petty adventurers in an infinite world
And prisoners of a dwarf humanity,
How long will you tread the circling tracks of mind
Around your little self and petty things?
But not for a changeless littleness were you meant,
Not for vain repetition were you built;
Out of the Immortal's substance you were made;
Your actions can be swift revealing steps,
Your life a changeful mould for growing gods.

A Seer, a strong Creator, is within,
The immaculate Grandeur broods upon your days,
Almighty powers are shut in Nature's cells.
A greater destiny waits you in your front...
Authors of earth's high change, to you it is given
To cross the dangerous spaces of the soul
And touch the mighty Mother stark awake
And meet the Omnipotent in this house of flesh
And make of life the million-bodied One.

Thus spoke the King in *Savitri*.

We seem to hear a last chorus of Sophocles sing on, beyond the Aegean Sea, on the Bay of Bengal.
They knew each other well.

Hardly seven years old, Sri Aurobindo was taken by his father to England for studies; a teenager, he entered Cambridge where he read in the original Greek Homer, Aeschylus, Sophocles ... even before he knew his mother tongue, Bengali. He also read Virgil in the original, and spoke “a very good French,” as Mother told me. Those Greeks awakened or reawakened an old mystery in his heart: how could one fail to find again that ancient whisper which toiled with us on many forgotten shores and is suddenly recognized there, as if from all time? One feels as if one were all men in a single moment. And how could that lonely and poor teenager on the banks of the Thames have failed to see the old Misery everywhere? Is this the end of our story? It was the time of triumphant Science and Materialism.

It was the time of Darwin. How can one imagine a seed that does not hold a tree? Man, really?

In 1893, just twenty, he returned to India, to learn of his father's sudden death. No, he was not a “philosopher” – “never, never, never,” he will exclaim three times, even though he had to write much philosophy to make himself understood in our mental age. He was a poet, seer, he was prescient. He began to penetrate India, that other mystery, and to look with eyes older than those of Sophocles, as if the most ancient from the womb of ages came to meet the future, our future, as if that future had always been there in a recess of the Himalayas, in the recess of another Time that slowly unfolded through our centuries and our never changing stories here or there.

Revelations swooped down on him like lightning, no one knows how in that silent heart of twenty-two years.

*I perceived the Law,
The Truth, the Vast,
From which we came and which we are; I heard
The ages past
Whisper their history, and I knew the Word*

Thus said Sri Aurobindo in one of his oldest poems written in India. Already he began the first outlines of *Savitri*, that prodigious epic of 23,813 lines which he would correct and recorrect and ceaselessly broaden as his exploration led him deeper into the unknown, into the depths of the body, until the last month of his life, in 1950, when he still revised “The Book of Fate”: twelve books divided into forty-nine Cantos ... “*The epic of the victory over death*,” said Mother when, alone, she had to hew in her body that path through “*the dark foundation of the earth of the dead*.”

That path ... through death, which holds the secret of our future.

(to be continued next week)

– Satprem, *The Tragedy of the Earth - from Sophocles to Sri Aurobindo*

The only hope for the future is a change of man's consciousness and the change is bound to come.

But it is left to men to decide if they will collaborate for this change or if will have to be enforced upon them by the power of crashing circumstances.

So, wake up and collaborate!

– The Mother

Lands for Auroville Unified Newsletter for April 24th

LFAU - A4A's 28th Quarterly Update focuses on two April events in which the creation of Auroville has its roots - the arrival of Sri Aurobindo to Pondicherry in 1910, and the definitive arrival of The Mother in 1920 to work by his side. An Important announcement: For all contributions from abroad the Government of India has just instituted a banking change for donating from abroad to Auroville. Please click [here](#) for the new details. For donations from within India, there is no change.

1. A4A FLIER - To be a "voluntary optimist" is one of the founding principles of Auroville. The Mother used this phrase in her diary entry of 23th March 1914, six days before her first meeting with Sri Aurobindo. 2. LFAU Letter - From a certain perspective, humanity as a whole constitutes a crew within a "Spaceship Earth" flying to a distant goal. 111 years ago, in 1910, an exceptional "crew member" - Sri Aurobindo - came to Pondicherry under what he once termed as "sailing orders". Click [here](#) for our article in English, Version française en pdf, and பிடிஎஃப்பில் தமிழ்ப் பதிப்பு.

4. The Work of the Auroville Land Board - Part 1 Few people realize the enormity of the work of the Auroville Land Board - executives and teams - for managing and carrying out all of Auroville's land protection and land purchase actions. We are dedicating a new series to this important area - our Part 1 presents the mandate as well as the achievements of the past 3 years. Click [here](#).

5. Renu - an Auroville Pioneer since the start! Renu was one of the first Auroville children, present for the 1968 Inauguration and the Matrimandir's consecration. As an energetic member of the Land Board, she continues to work building Auroville, holding it as close as possible to the exciting vision she grew up with. Here's her story in [this interview](#) by Joel.

Covid Updates

From the Secretary-in-charge, Auroville Foundation

The Office of the Secretary will function with very limited staff for emergency purposes. No visitors will be allowed. You can contact us through phone or email.

All residents maybe advised to stay home safely and follow strictly all precautions of wearing a mask properly, maintain social distancing of 2 meters and hand hygiene if they have to go out for essential services.

The Working Committee may please ensure that no events or gatherings be allowed on Auroville campus or premises and absolutely no parties, especially after 10pm, which will be viewed seriously. Restrictions as per the TN government notification will have to adhered to without any relaxation or compromise.

The Working Committee may kindly inform all other relevant committees & groups for compliance. Our concerned department & section in the Ministry of Education are also marked for kind information.

- Sincerely, Srinivasurthy, Secretary I/C

As you are aware, over the past 4 weeks India has been experiencing a 2nd Wave of Covid-19. The 2nd wave has intensified very rapidly and is characterised by virus strains that have been observed to be more contagious and virulent and - according to medical professionals- also may be partially resistant to antibodies developed by symptomatic and asymptomatic infections during the 1st wave. In Auroville it has been observed that most of the cases this time do have symptoms and some have been/are very unwell, whereas in the initial wave almost all cases were asymptomatic.

Please find below the latest update about cases in Auroville:

Three of the cases in Sharnga and the case in Gaia that were announced earlier have now mostly recovered and have tested negative. However, 2 more Council members (in addition to Shivaya), Suryan (living in Isaiambalam Guest House) and Claudine (living in Inspiration) -names shared with their permission - have tested positive after experiencing symptoms. In addition, a guest staying in Isaiambalam GH has tested positive so the guesthouse is now in self-imposed lockdown since there are shared spaces there. There are now 3 more residents of Auroville who have tested Covid positive, all 3 living in Grace community as neighbors. Two of the three are primary contacts of the guest staying in Isaiambalam GH, announced earlier. They all have mild to moderate symptoms, are isolating at home with the support of the Santé Coordination team, the community has been informed and contact tracing has been done. **This brings the total number of Covid positive cases in Auroville to 11.**

Contact tracing has been done but if anyone has had direct and close contact with Shivaya, Suryan or Claudine since the 14th of this month (the time of onset of symptoms) and has not been contacted by someone from the Santé Coordination team, please write to santecoordination@auroville.org.in

Due to the rapid increase in active cases, members of the previous Covid Task Force are helping Santé Coordination in order to be able to effectively handle the work involved in contact tracing, testing, and care and support for our fellow Aurovilians who may need it.

The Ambulance Service Team are now actively supporting the Santé Coordination team. In addition, regular coordination of all the health services has been re-established. For positive Covid cases, a system of round-the-clock medical care availability on a shift basis has been put in place. A plan is also under consideration to upgrade the facility of Sharanam in order to take care of more serious cases, as local hospitals in the Pondicherry region have limited or no availability of beds.

Our own internal resources for dealing with Covid-19 are very limited, both physically and medically. **We simply don't have the human and physical resources to deal with many more cases, especially if they are in a critical condition.** We are already challenged by assisting cases who have tested positive and are unwell, and by tracing their contacts to limit further spread from them into the community. And we do not have the medical resources in Auroville to manage Covid-19 cases who cannot be managed at home due to a deterioration in their condition. If cases increase in Auroville in the coming weeks, it may prove very difficult to obtain the needed medical attention and support.

From the 23rd, there has been a full lockdown in Pondicherry from 10 PM on Fridays until 5 AM on Mondays. During the rest of the week (Monday to Friday) shops and other establishments will be open only from 5 AM to 2 PM.

Hence, we strongly recommend that maximum precautions be taken in the coming few weeks to reduce the risk of contagion. The only way to stop the surge in cases in Auroville and to stay safe, as a community and individually, is to reduce activities that are not essential plus very high-risk activities such as indoor sports facilities and sports activities with body contact, movie theatres, choir and other cultural practice and performance in groups, meetings in closed spaces, contact dance, schools, etc, with immediate effect.

Also, please wear masks, practice good hand hygiene and keep a safe distance of at least 2 metres from others as much as possible. We hope for your understanding of these new and more serious challenges that are being faced and look forward to your collaboration in a spirit of fraternity and community.

In response to feedback from a few residents, it is important to share with you that the communications we send out are not motivated by fear. It is our belief that we all must do what we can with all our human limitations, while at the same time having faith that all is in Her hands.

We understand that there are different views about the pandemic and the precautions to take in order to avoid infection, but we appeal to everyone to please set aside personal opinions and do what is necessary to help those around you to feel safe, including our neighbors in the surrounding villages.

- With best wishes, Santé medical staff, Santé Coordination team, Auroville Ambulance team and the Working Committee

HEALTH

Health in Auroville - A Survey

Friends working in the field of health in Auroville: Do you know that we are more than 230 health practitioners/healers in Auroville?

As announced on the 5th of April, a survey on health has directly reached you by email. The survey covers all aspects of our practice, including our wishes, expectations and reservations in enhancing the quality of our work. The survey also tackles possible connections between health and the other fields of activity in Auroville. Although the list of recipients contains 230 individuals and 15 centers, it may be incomplete, and you may know someone who practices and did not receive it. *Please let me have any missing email address.*

Please fill the survey before Sunday the 16th of May.

Depending on the replies, the possible next steps of this work could be (non-exhaustive list):

- Organizing and presenting the data on health to the community (No personal data will be shared to the

community without your consent. The report that we publish will be at an aggregated level.)

- Creating a webpage on health in Auroville, under the www.auroville.org.in
- Creating a directory of all practitioners in Auroville
- Launching another survey for the users, to collect their expectations and/or concerns regarding Health
- Improving both safety and quality for patients and clients.

Many thanks to all who are supporting this work,
- Dan - dan@auroville.org.in

Protection from a hostile environment

In times like these, it is beneficial to tune into the essential, to center where the source of inspiration and strength is inexhaustible. In THE SCIENCE OF LIVING The Mother says, "Love, Knowledge, Power and Beauty - these four attributes of the Truth will spontaneously express themselves in our being. The Psychic will be the vehicle of true and pure love, the mind that of infallible knowledge, the vital will manifest an invincible power and strength and the body will be the expression of a perfect beauty and a perfect harmony" (link: <http://saccs.org.in/texts/mother/-ma-scienceofliving.php>)

To help us turn inwards again, Ayurveda and other traditional medicines bring guidance if we are shaken by a hostile environment, may it be outer or inner (with unconstructive or demeaning emotions - Vata nature with anxiety, fear, stress; Pitta nature with frustration, anger, being opinionated; Kapha nature with confusion, being a victim, depression).

1. Eat freshly prepared home-made foods, eat when appetite is there:
 - With pulses or grains add vegetables along with spices (eg: ginger, turmeric, black pepper, cumin, coriander, cinnamon, ajwain, basil, garlic, etc)
 - Avoid Kapha-producing foods like dairy products and sugar/sweet food
 - If the digestion feels heavy, take a shot of ginger-turmeric-black pepper powders after food
2. Drink hot water with ginger and lemon or herbal or green tea (especially Tulsi - works wonder on respiratory tract)
3. Eat 1tsp a day of Chyavanprash
4. Organic fruits or vegetables are nature's "farm"acy, they might not look appetizing and shiny but they are full of vitamins and minerals and their seeds are "mother seeds" (they reproduce fruits or vegetables when you plant them, unlike hybrid or modified seeds that are sterile)
5. Keep moving, do exercise, sweat it out even if it's just 15 minutes per day
6. Keep your senses lubricated: drink enough water; put 2 drops of sesame oil or Anu Tailam (ayurvedic medicated oil) in each nostril in the morning and at bedtime; massage the soles of the feet and palms of hands with sesame oil if you can't do a full body oleation
7. Gargle with hot water, salt and a pinch of turmeric
8. Cultivate happiness and positivity by nourishing your senses and mind with uplifting news, sounds, images, contacts
9. Clean the atmosphere with sage fumigation or holy basil vaporization
10. Wash your hands regularly, especially before preparing and eating food and before/after the use of the toilet
11. Burn incense or do aromatherapy with eucalyptus, holy basil (Tulsi), rosemary, sage, sandalwood

Feel strong, safe and protected - Be @ Santé Clinic

WORK OPPORTUNITIES

ation of the group with some key areas of focus: Internal

The Farm Group is looking for someone who can assist us, the Farm Group Coordination Team (FGCT), in an administrative & secretarial role. The Farm Group recently endorsed the FGCT to take forward the Coordination of the group with some key areas of focus: Internal

Administration; External Representation & Communication; Finance; Production & Distribution.

We are also expected and supported by farmers to:

- act fairly & constructively towards the shared objectives of FG and Auroville;
- build collaboration, mutual respect & understanding with working groups;
- promote & advocate for farms & Farm Group;
- help develop more efficient & practical ways of engaging farmers on topics beyond monthly meetings, keep topics moving forward with easier participation.

There is a considerable amount of administrative & communication work to be undertaken which is not sustainable for the existing members engaged in their farms, so we hope to find a dedicated & long-term resource for this. Initially we would expect this work to be half-time, potentially shifting to full time depending on the person's interest to engage more deeply in the work and a positive dynamic with FGCT & Farm Group. There is a maintenance reserved for this position and we would work actively with the administrator to make sure the needs are met on both sides for this new collaboration.

If you or someone you know would be well-placed to take up this work, please contact farmgroup@auroville.org.in. For us, it is an exciting time to be engaged in providing organic & sustainable food for the community, and we look forward to building new collaborations with you all.

- Warmly, Farm Group Coordination Team

THE MAGIC BOAT

This year we've been blessed - our Irumbai Lake is full of water! But on the roadside from the Visitor's Centre towards Kottakarai there to the Ashram Farm, one can see a string of garbage piles. Even in the lake water itself there is plastic pollution.

Question: How can we clean up all this waste?

Answer: The magic pedal boat will do it!

People can enjoy a boat trip around the lake & give a donation so that wages can be paid to clean up the lake area every year. People without money can collect 1 bag of plastic in exchange for 1 hour in the boat on the lake. All together the project will create working opportunity, eco awareness and joy.

If you think this is a good idea, you can be part of its realisation. - Rs. 25,000 are required. Our acct # is 0486 - please mention Magic Boat.

Remembering Ilse on 05.05.2021 (15th Anniversary)

My dear friend,

It is very difficult to forget you, even though it is 15 years now. We had some very good moments together - never any misunderstanding. You were a good advisor, friend, well-wisher and took care of my son by dropping & picking up from Transition school. He still remembers the Gratitude flowers that you plucked for him on the way to school. Your memory remains as if sculpted in the rocky stone. We all miss you and love you forever my dearest friend. - Love, Raji, Arunachalam and Gothainayagi
